

2019 Chipper Rental Rebate Program

Wildfire Adapted Partnership's Chipper Rental Rebate Program encourages the chipping of slash from wildfire mitigation conducted on any privately-owned property in Archuleta, Dolores, La Plata, Montezuma, or San Juan counties in Colorado. Wildfire Adapted will reimburse the homeowner 50% of the cost, **up to \$250 maximum**. You may choose to rent a chipper yourself or hire a mitigation company to provide chipping services, assuming all requirements are met.

A home or property Owners Association, Metropolitan or Road District or similar entity may sponsor a chipping day for residents. These organizations can get reimbursed up to 50% of the cost, **with a \$750 maximum reimbursement**.

Rebates will be processed on a first-received basis. Submittal of this form does not guarantee a rebate. Wildfire Adapted Partnership does not warrant or otherwise assume any liability for the work performed. This program is valid for chipping conducted April 1, 2019 through September 30, 2019 for as long as funds remain available in 2019. Early submission is advised.

Requirements:

- All receipts for contract work/labor or chipper rental are required. Rebates will not be given without original documentation of expenses in the form of scanned original receipts. *If you are submitting a paper application, you may make a copy of the original receipts and submit the paper copy.*
- Two (2) photos of the chipping activity are required. Digital photos in JPG format are preferred with electronic submissions.
- Only one annual rebate per individual property or per Owners Association or similar entity.
 1. Individual reimbursement limits: 50% of the cost, with a \$250 maximum
 2. Owners Association limits: 50% of the cost with a \$750 maximum
- Applicants must use the Wildfire Adapted application form. Do not summarize the information in an email or letter. Fill in all the appropriate information required, include scanned receipts. If using a smart phone, it is best to use a scanning app (i.e. Cam Scanner, Turboscan, Evernote Scannable, Simple Scanner, etc.).
- Electronic submissions are the quickest and most reliable way to submit a request.

Submit scanned/digitized applications to:

Wildfire Adapted Partnership
Chipper Rebate
701 Camino Del Rio, Suite 306
Durango, CO 81301

chipper@WildfireAdapted.org

NOTE: *If you choose to use your chips for landscaping, please keep them at least five feet from the house. Research shows that most homes are lost during a wildfire when burning embers land in flammable material (wood chips, leaves, pine needles) near the home.*
